

USC University Hospital and USC Norris Cancer Hospital at a Glance

Located in Los Angeles, USC University Hospital is a private, 411-bed acute care hospital staffed by The Doctors of USC, who are also faculty at the renowned Keck School of Medicine of the University of Southern California.

Also located in Los Angeles, one of only a few facilities in Southern California built exclusively for cancer research and patient care, USC Norris Cancer Hospital is a 60-bed inpatient facility providing acute and critical care. The hospital features a designated bone marrow transplantation unit and a surgical unit with specially trained staff who strive to meet the unique needs of cancer patients and their loved ones.

These two modern facilities offer some of the most sophisticated technology available. Among the hospital's advanced services are neurointerventional radiology, minimally invasive cardiothoracic surgery, robotic surgery and interventional cardiology. Surgical specialties include organ transplantation and neurosurgery, as well as cardiothoracic, bariatric, esophageal, orthopaedic, and plastic and reconstructive surgeries.

USC Norris Cancer Hospital is affiliated with the USC Norris Comprehensive Cancer Center – one of the original nine comprehensive cancer centers designated by the National Cancer Institute. The Cancer Center recently opened 99,000 square feet of new laboratory research space, including space for the new Epigenome Center. The close affiliation between the hospital and cancer center offers immediate benefit to patients seeking the latest breakthroughs in cancer prevention and treatment. Clinical trials are available for eligible patients who may have failed conventional cancer treatment.

[Location: Los Angeles, California](#)

Conveniently located just off the San Bernardino freeway near downtown Los Angeles, USC University Hospital offers top medical expertise and sophisticated technology, combined with a personalized approach to health care. Patients also can visit the private offices of USC physicians, The Doctors of USC, in the Healthcare Consultation Centers I & II, located adjacent to the hospital on USC's Health Sciences Campus. The Health Sciences campus, northeast of downtown Los Angeles, is home to the Keck School of Medicine of USC, the School of Pharmacy, three major teaching hospitals and programs in Occupational Science and Occupational Therapy, and Biokinesiology and Physical Therapy.
